COURSE DESCRIPTION

This course is designed for future leaders of health care organizations. The course provides Students with the basic knowledge and concepts of health care financial management theory and practice to enhance financial viability and performance for health care organizations.
REQUIRED TEXTBOOKS

COURSE OBJECTIVES

1) Identify and evaluate the functions structure and role of Financial Management in Health Care Organizations (HCO’s).

2) Analyze and design financial strategies that enable effective Financial Performance, Cost Control and Management of Risk.

3) Evaluate and understand Governance, Administrative, and Financial Management Roles in Financial Oversight of HCO’s.

5) Be prepared to assume a position of leadership in a health care organization and to help improve Financial Management Transparency and Integrity.
COURSE EXPECTATIONS

Graduate Students in the School of Public Administration are presumed to be adult learners who are taking PADM 563, Health Care Finance, to improve their leadership capabilities for Health Care Management Roles. Students are expected to regularly attend class on a timely basis, actively participate and contribute to a positive learning environment and actively engage in the discussion and presentation of Finance Cases with their Student Team Members, as assigned. Reading of assigned materials will be critical for successful learning. If unusual circumstances require you to miss a class, please send an explanatory E-Mail or Text Message to Professor Aldrich in advance of the class.

GRADING SYSTEM
