

PADM 544 Public Budgeting and Finance

Professor Agustin Leon-Moreta
Fall 2020

Class Meeting: Friday 4 - 6:30 pm. You'll join using the Zoom Class Meeting link on Learn.

Office Hours: Zoom and phone meetings available by appointment

Address: Social Sciences 3006

Email: apleonmoreta@unm.edu. Email normally is best to get in touch. *Allow up to 24 hours for a response to emails.*

Phone: Call (505) 277-1092 if you need immediate assistance.

RECOMMENDED BACKGROUND

- PADM 500 Public Management & Policy
- Basic familiarity with Excel spreadsheets. Students unfamiliar with Excel are encouraged to seek one-on-one support from the instructor or the UNM Graduate Resource Center.

COURSE DESCRIPTION

Welcome to *PADM 544 Public Finance and Budgeting*. This course introduces you to the theory and practice of public budgeting and financial management. In this core course, you will learn the fundamentals of budgeting and financial management for government and not-for-profit organizations. Through readings, lectures, problem sets, and exams, you will gain an understanding of how to use budgetary and financial information in organizational planning, implementation, control, reporting, and analysis. Topics include basic management of public funds, preparation and processing of budgets, revenue projection and expenditure controls, issues of fiscal policy, and the establishment of priorities through budgeting and financial management. You'll also have a chance to develop spreadsheet skills by using Excel to perform financial calculations and create financial documents.

COURSE OBJECTIVES

The primary objective of this core course in public budgeting and financial management is to teach students how to use budgetary and financial information to make decisions in public and nonprofit organizations. A secondary objective is to help students develop their quantitative and communication skills. This course looks at budgeting and financial management as a process. The process begins with the development of a plan for the future. The plan is then implemented. Actions are taken to control operations to keep to the plan. Results of operations are then reported, and those results are analyzed.

The first half of the course focuses on developing, implementing and controlling the plan. The course covers the development of operating budgets, tools for short-term decision making, capital budgeting decisions, and the analysis of long-term financing options. Management of short-term resources and variance analysis are also covered in this half of the course. The material in the first half of the course is often referred to as budgeting and accounting for managerial control.

The second half of the course focuses on summarizing, reporting, and analyzing an organization's financial position and the results of its operations. We'll study theory and practice

related to accounting principles, financial statements, financial analysis, and specific aspects of accounting for government and not-for-profit organizations. We'll consider how financial information is presented and how it can be used to provide meaningful conclusions about the financial position and performance of a public service organization. The material in the second half of the course is often referred to as financial accounting and reporting.

The following MPA core learning outcomes are addressed in this course:

- Demonstrate familiarity with basic budgeting processes, concepts, and models.
- Distinguish among key administrative resource concepts such as efficiency and effectiveness, inputs, outputs, and outcomes, budget and finance and others in public programs.

POLICIES

Punctual Attendance Required: Beginning the first day, attendance will be recorded at 4:00 pm. Per the UNM Student Handbook, a student may be dropped from the course as a consequence of absences from class. **This attendance requirement applies equally to main-campus students and distance/online students.** All students are expected to use a desktop computer, a camera, and cable internet or high-speed connection for participating in class. Your camera must be *on* during the class meeting; students not visible to the classroom aren't considered in attendance.

No Late/Makeup Assignments: Late or makeup assignments won't be accepted. Under an extraordinary circumstance only, I may consider a late submission for partial credit.

Time/Workload Commitment: This course is a core course of the MPA program that requires **independent work and study**. To successfully learn the course material, graduate **students should commit at least 10 hours per week** to the course outside of class.

Electronic Devices: **Turn off cell phones** during class. A computer only is permitted for class-related work only, such as participating in class or taking notes. **Don't use your computer for other purposes.**

Academic Integrity and Consequences: The University of New Mexico believes that academic honesty is a foundation principle for personal and academic development. All University policies regarding academic honesty apply to this course. Academic dishonesty includes, but is not limited to, cheating or copying, plagiarism (claiming credit for the words or works of another from any type of sources such as print, Internet or electronic database, or failing to cite the source), fabricating information or citations, facilitating acts of academic dishonesty by others, having unauthorized possession of tests and exams, submitting work of another person or work previously used without informing the professor, or tampering with the academic work of other students. **All course assignments are independent, individual work.** Student assignments will be checked for originality through the UNM Safe Assign system. The University's full statement on academic honesty and the consequences for failure to comply is available in the Catalog and the Pathfinder.

Accommodation Statement: In accordance with University Policy 2310 and the Americans with Disabilities Act (ADA), academic accommodations may be made for any student who notifies the instructor of the need for accommodation. It is imperative that you take the initiative to bring

any such needs to my attention since I'm not legally permitted to inquire. Students who may need assistance in emergency evacuations should contact me as to the most appropriate procedures to follow. If you need an accommodation based on how course requirements interact with the impact of a disability, you should contact me to arrange an appointment as soon as possible. At the appointment, we can discuss the course format and requirements, anticipate the need for adjustments and explore potential accommodations. I rely on the Disability Services Office for assistance in developing strategies and verifying accommodation needs. If you have not previously contacted them, I encourage you to do so. Contact Accessibility Resource Center at 277-3506 for more information.

Email Communication: Using your UNM email account is encouraged for electronic communication.

Student Feedback: Your feedback on the course will be welcome and appreciated. We'll ask for your feedback through various channels, formal and informal, throughout the semester.

Syllabus Changes: **This syllabus will be updated** as needed. I reserve the right to change any content of the syllabus, at any time, including the grading rubrics, re-weighting, and assignments. Assignments may be changed or added over the semester. If a change is made, I'll update the syllabus. **Use the most recent syllabus posted on Learn.**

GRADING

Participation	10
Problem sets	10
Tests	20
Case study	30
<u>Final exam</u>	<u>30</u>
Total grade	100 points

Participation: This will be worth 10 points out of 100 points. **Punctual attendance is required for every class** meeting of the semester. Active participation in class is expected. In class, please feel free to interrupt me with questions or comments. Please thoroughly study the weekly material in preparation for class participation. Participation includes asking questions, commenting on the class material, answering the instructor's questions, collaborating in group activities, and citizenship behavior in class. This participation requirement applies equally to main-campus students and distance/online students.

Problem Sets: Weekly problem sets will be worth 10 points out of 100 total points. They will be applied exercises regarding the weekly material. The problem sets are a very important component of the course because they give an opportunity for practical applications. The problem set will be announced on Blackboard Learn. I'm happy to take a look at working drafts of your work. If you'd like early feedback, feel free to send me draft versions at least twenty-four hours before the deadline. Your problem set must be submitted on Blackboard Learn by Friday at 9:00 am.

Tests: These will be worth 20 points out of 100 total points. They will assess weekly reading assignments. **Readings must be completed before class** meetings when those readings will be discussed. Weekly readings will be based on the textbooks, but additional readings may be assigned during the semester. Weekly tests will be open on *Learn* after class and are due on Friday at 9:00 am. Tests may include a variety of questions. Tests are a very important component of this course because they give you opportunities for skill application and practice toward the final exam. To ensure the highest possible grade, each test offers three attempts for you to take.

Final Exam: The final exam will be worth 30 points out of 100 total points. The exam format will be similar to the tests but comprehensive of all course materials. This final examination will be open from December 5th at 3 pm to the end of the 7th.

Case Study: A larger case study will be worth 30 points out of 100 total points. The case study will be about assessing the financial condition of a city government. The case study should be written in the format of the PADM553 Professional Paper (pro-paper). You'll orally present, in class, reports of your case study over the semester. Papers will be checked for originality through the UNM Safe Assign system. See the appendix for case study guidelines. I'll provide, in class or by email, further information regarding this case study. This case study is due on December 12th.

Grading Rubric for assignments:

(A+) Excellent: Exceptional work for a graduate student. Work at this level is unusually thorough, comprehensive, creative, innovative, methodologically sophisticated, and well written. Work is of the highest professional quality.

(A/A-) Very good: Very strong work for a graduate student. Work at this level shows signs of creativity, is thorough and well-reasoned, indicates a strong understanding of appropriate methodological or analytical approaches, and meets professional standards.

(B+) Good: Good work for a graduate student; well-reasoned and methodologically sound. This is the graduate student grade that indicates the student has accomplished the basic objectives of the course.

(B) Adequate: Competent work for a graduate student even though some weaknesses are evident. Demonstrates competency in the key course objectives but shows some indication that understanding of some important issues is less than complete. Methodological or analytical approaches used are adequate, but the student has not been thorough or has shown other weaknesses or limitations.

(B-) Borderline: Weak work for a graduate student; it barely meets the minimal expectations for a graduate student in the course. Understanding of salient issues is incomplete. Methodological or analytical work performed in the course is minimally adequate. Overall performance, if consistent in graduate courses, would not suffice to sustain graduate status in good standing.

(C/-/+) Deficient: Inadequate work for a graduate student; doesn't meet the minimal expectations for a graduate student in the course. Work is inadequately developed or flawed by numerous

errors and misunderstanding of important issues. Methodological or analytical work performed is weak and fails to demonstrate the knowledge or technical competence expected of graduate students.

(F) Fail: Work fails to meet even minimal expectations for course credit for a graduate student. Performance has been consistently weak in methodology and understanding, with serious limits in many areas. Weaknesses or limits are pervasive.

COURSE MATERIALS

Your Blackboard Learn page will be automatically loaded with the textbook by RedShelf. The cost of the ebook, \$57.75 according to the Bookstore, will be charged to your bursar account. If you prefer a print book or more information, check out https://bookstore.unm.edu/t-lunm_inclusiveaccess.aspx or contact inclusiveaccess@unm.edu. **Opt out before the deadline** if you prefer to buy the book from another vendor. COURSE CALENDAR

Week	Read	Test-Set by
I	Preface, Chap. 1 Introduction, and Appendix 1-A	Aug 21
II	Chap. 7 Short-term financial management and Appendices 7-A/B	Aug 28
III	Chap. 2 Planning for success: budgeting	Sep 04
IV	Chap. 3 Additional budgeting concepts and Appendices 3-A and 3-B	Sep 11
V	Chap. 8 Accountability and control	Sep 18
VI	Chap. 4 Understanding costs	Sep 25
VII	Chap. 5 Capital budgeting and Appendices 5-A and 5-B	Oct 02
VIII	Chap. 6 Long-term financing	Oct 09
IX	Chap. 9 Balance sheet and Appendices 9-A and 9-B	Oct 16
X	Chap. 10 Activity statements and Appendices 10-A thru 10-E	Oct 23
XI	Chap. 11 Accounting for nonprofit and health organizations	Oct 30
XII	Chap. 12/13 Recording and reporting for governments	Nov 06
XIII	Chap. 14 Financial statement analysis	Nov 13
XIV	Chap. 15 Financial condition and Appendix 15-A	Nov 20
	THANKSGIVING	Nov 27
XV	In-class presentation of case studies	Dec 04

Note: Your presentation of case studies and a class picture are scheduled for the last meeting.

APPENDIX Case Study Expectations

I. Introduction (1 page)

In this case, you will assess the financial condition of a city government. You will examine the (1) Budget and (2) Financial Reports (CAFR) of a large U.S. city of your choice. The city must have at least 100,000 population. Additionally, **your city must have a recent Budget and CAFR available online**, because you will need to download and use both documents for this research. Interpreting financial reports is one of the most important skills for a public manager. Your report should be organized into two major sections. In the first section, you will present the social, economic, and fiscal characteristics of your city. In the second section, you will develop the financial analysis of your city.

II. Social, Political and Economic Characteristics (about 5 pages)

Using the most recent Budget and the CAFR, identify the main functions of your city. Describe the socioeconomic and demographic characteristics of your city. Next, describe the main programs and services provided by your city. What are the main operating programs of the city (e.g., police, fire)? What are the largest capital spending programs (e.g., highways, sewage)? What are the major sources of revenue for the city and why? Discuss how diversified or constrained are the revenues of the city. Does the city rely on one major tax or does it rely on multiple sources of revenue? What advantages or disadvantages do you see in this city's dependence on those revenues? Lastly, how could this city save money, e.g., in the event of a revenue shortfall? Support your analyses by presenting major amounts from the budget. At a minimum, questions to examine include:

- What are the largest spending programs of your city?
- What sources of revenues support those expenditures? Calculate the percentage of own-source revenue out of total revenues.
- How many functions (or services) does the city provide? E.g., public works, safety, utilities, parks, etc. Calculate the percentage of expenditure allocated to each of those functions out of total expenditures.

III. Financial Analysis (about 5 pages)

Using the most recent Financial Report (CAFR) (and its supplementary information), analyze the financial condition of the city. Assess the liquidity and solvency of the city. Does the city have enough cash and short-term assets to meet short-term obligations? Assess the financial condition and solvency of the city. Does the municipality have a strong ability to serve long-run obligations? Using the Notes, identify significant accounting policies that potentially affect the reliability of the financial reports. Are you concerned about the credibility of the financial report based on your reading of the Notes?

IV. Conclusion and Recommendations (1 page)

In this concluding section, briefly summarize your findings concerning the financial condition as well as the service priorities of the city for the upcoming year. May suggest policy priorities or good practices for future years based on your research. May suggest what the city can do to strengthen its long-run financial condition.

Format of the Paper

Length: At least 10 double-spaced pages, aside from appendices. There's no upper limit.
Appendices: Place references, graphs, or tables in appendices (not within the text)
Font: Use Times New Roman, 12 pt.
Margins: 1 inch

Suggestions

You may incorporate preliminary ideas and analyses on your city from the weekly problem sets.
You may use and cite additional bibliography for this case study.

DRAFT
